POWERFULLY AGILE

SPECIFICATIONS

ELECTRIC POWERED LIFT TRUCKS 48V, 1.4 - 2.0 TONNES

TUNED IN TO THE DRIVER

WITH ADVANCED FEATURES THAT MAKE DRIVING AND LOAD HANDLING EASIER, STEADIER, SAFER AND MORE COMFORTABLE, DRIVERS FEEL THE MACHINE IS TOTALLY IN TUNE WITH THEM, SO THEY ARE HAPPY, CONFIDENT AND HIGHLY PRODUCTIVE.

VIDEO

360° steering option gives greater agility in turning. This allows the truck to turn and move in the opposite direction (180°) without stopping, and avoids destabilising the load (3 wheel model).

Responsive Drive System (RDS) reacts instantly to changes in the speed of foot and pedal movement meaning all actions are smoothly controlled, including cornering behaviour, stops and starts.

Load-sensing hydraulic system automatically adjusts to the weight being handled, to maintain precise control. Passive sway control keeps the automatic parking brake open so mast sway energy is absorbed by the mass of the whole truck. All masts and low-friction side-shift minimise sway, twisting and noise.

The adjustable seat and steering column assure a perfect driving position for drivers of all sizes. Forward, downward and side views are excellent due to a specially designed free lift cylinder structure where hoses and chains are positioned to minimise obstacles to vision. Ergonomic controls include an adjustable armrest, with inbuilt fingertip levers, and a set of low-fatigue pedals.

LOWER COST OF OWNERSHIP

- Efficient motors with high RPM range give better precision in acceleration control, create more torque at low speeds and reduce energy consumption.
- Fully electronic magnetic brakes require less servicing and offer greater energy efficiency.
- Robust construction and sealed components reduce maintenance needs.
- Durable hose and hydraulic cylinder sealing specification withstands high temperature range, weathering and physical wear.
- Fast battery compartment access speeds up servicing and exchanges.
- Easy-to-read multi-function colour display encourages correct use and maintenance of truck.
- Modular design simplifies addition or replacement of parts, including overhead guard and cabin options.

UNMATCHED PRODUCTIVITY

- Responsive Drive System (RDS) adapts performance rapidly in reaction to speed of pedal operation, and ensures all movements, stops and starts are smooth.
- Variable steering ratio and steering force are continuously optimised for different travel speeds.
- Advanced curve control co-ordinates the two front-wheel drive motors and rear steer axle motor to optimise turning speed, stabilise fast sideways movements of the counterweight, and prevent tilting when straightening after high-speed turns.
- Dual drive '4-wheel steering' with a +100° rear turning axle provides smooth and agile manoeuvring, including instant side turns with no need to push back.
- 360° steering option enables fluid turning without stopping to change direction (3 wheel).
- Load-sensing hydraulic system automatically adjusts to the weight being handled, to maintain precise control.
- Simultaneous hydraulic functions are electronically compensated (when using fingertip controls) to keep their behaviour consistent whatever the load weight.
- Passive sway control keeps automatic parking brake open during lifts, so mast sway energy can be absorbed by chassis.
- As standard, truck acceleration and hydraulic performance is automatically limited at lifts from 3.5 metres for steady, controlled handling. As an option, this feature can be set to activate at lifts above 2 metres.
- High-specification masts and low-friction side-shift minimise sway, twisting and noise.
- Pre-set ECO and PRO modes can be selected for different drivers and tasks, or customised settings can be applied by service engineers.

SAFETY AND ERGONOMICS

- Extended seat and steering column adjustability assures a comfortable driving position, and enables good vision with no need to lean forward.
- Spacious operator compartment offers comfort and easy access features for drivers of all sizes.
- Inclined and narrow dashboard, one-spoke steering wheel and optimised free lift cylinder structure maximise forward, downward and side visibility.
- Spring-force-optimised fingertip hydraulic controls on adjustable armrest ensure ergonomically perfect hand positioning, anatomical support and free movement.
- Pedal design, position and angles reduce fatigue for drivers of any height or foot size.
- Steering knob automatically returns to convenient 8 o'clock position when truck drives straight, even if the wheel has been overturned.
- Low-noise gearbox improves conditions for drivers and their colleagues.
- Presence Detection System+ includes automatic parking brake, hill hold and – if operator is not seated – prevention of travel and hydraulic movement.

STANDARD EQUIPMENT AND OPTIONS

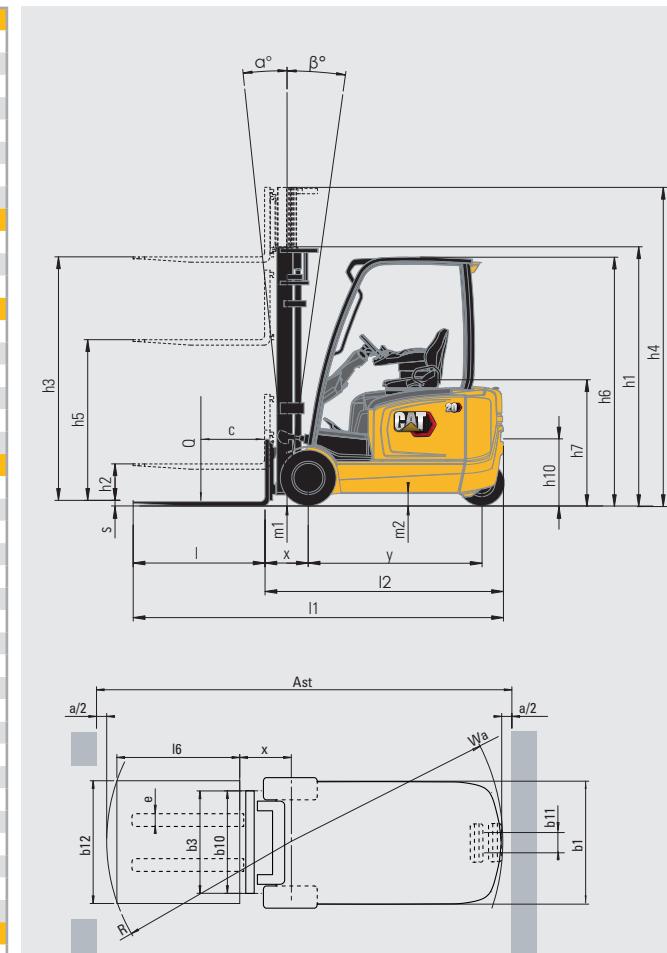

● Standard

Option

For more information about standard and available optional equipment, please contact your dealer.

Characteristics	
1.1	Manufacturer (abbreviation)
1.2	Manufacturer's model designation
1.3	Power source: (battery, diesel, LP gas, petrol)
1.4	Operator type: pedestrian, (operator)-standing, -seated
1.5	Load capacity Q (kg)
1.6	Load centre distance c (mm)
1.8	Load distance, axle to fork face x (mm)
1.9	Wheelbase y (mm)
Weight	
2.1	Truck weight, without load / including battery (simplex mast, lowest lift height) kg
2.2	Axle loading with maximum load, front/rear (simplex mast, lowest lift height) kg
2.3	Axle loading without load, front/rear (simplex mast, lowest lift height) kg
Wheels, Drive Train	
3.1	Tyres: V-solid, L=pneumatic, SE=solid pneumatic - front/rear
3.2	Tyre dimensions, front pcm/ (mm)
3.3	Tyre dimensions, rear
3.5	Number of wheels, front/rear (x=driven)
3.6	Track width (centre of tyres), front b10 (mm)
3.7	Track width (centre of tyres), rear b11 (mm)
Dimensions	
4.1	Mast tilt, forwards/backwards α/β °
4.2	Height with mast lowered (see tables) h1 (mm)
4.3	Free lift (see tables) h2 (mm)
4.4	Lift height (see tables) h3 (mm)
4.5	Overall height with mast raised h4 (mm)
4.7	Height to top of overhead guard h6 (mm)
4.8	Seat height h7 (mm)
4.12	Tow coupling height h10 (mm)
4.19	Overall length l1 (mm)
4.20	Length to fork face (includes fork thickness) l2 (mm)
4.21	Overall width b1/b2 (mm)
4.22	Fork dimensions (thickness, width, length) s / e / l (mm)
4.23	Fork carriage to DIN 15 173 A/B/no
4.24	Fork carriage width b3 (mm)
4.31	Ground clearance under mast, with load m1 (mm)
4.32	Ground clearance at centre of wheelbase, with load (forks lowered) m2 (mm)
4.33	Working aisle width with 1000 x1200 mm pallets, crosswise Ast (mm)
4.34a	Working aisle width with 800 x1200 mm pallets, lengthwise Ast (mm)
4.35	Turning circle radius Wa (mm)
4.36	Minimum distance between centres of rotation b13 (mm)
Performance	
5.1	Travel speed, with/without load km/h
5.2	Lifting speed, with/without load m/s
5.3	Lowering speed, with/without load m/s
5.5	Rated drawbar pull, with/without load N
5.6	Maximum drawbar pull, with/without load (5 min short duty) N
5.7	Gradeability, with/without load %
5.8	Maximum gradeability, with/without load %
5.9	Acceleration time (10 metres) with/without load s
5.10	Service brakes (mechanical/hydraulic/electric/pneumatic)
Electric Motors	
6.1	Drive motor capacity (60 min. short duty) kW
6.2	Lift motor output at 15% duty factor kW
6.3	Battery to DIN 43 531/35/36 A/B/C/no
6.4	Battery voltage/min- max capacity V/Ah
6.5	Battery weight kg
6.6a	Energy consumption according to EN 16796 kWh/h
Miscellaneous	
8.1	Type of drive control
8.2	Maximum operating pressure for attachments bar
8.3	Oil flow for attachments l/min
8.4	Noise level, value at operator's ear (EN 12053) dB(A)
8.5	Towing coupling design / DIN type, ref.
